EDUCATION

Punchcode, Las Vegas, NV— *Junior Software Developer*

September 2019 - December 2019

Three Month highly immersive program with 600+ hours of professional training and working on code. Created Full-Stack projects in a team based learning environment. Learned up-to-date Front-End Languages and Frameworks along with Back-end technologies. Worked in an Agile Environment utilizing the Scrum framework.

East Career Technical Academy, Las Vegas, NV— *Mechanical Technology*

August 2014 - June 2017

Graduated with a degree of Mechanical Technology. During school, focused on the ability to give presentations with various projects.

College of Southern Nevada, Las Vegas, NV— General Education

August 2017 - December 2018

Learned about various subjects in order to gain knowledge, while taking these general education classes.

PROJECTS

OrderUp— *CapStone*

A website for viewing, creating, and sharing recipes. This was made in the final two weeks at Punchcode. To view more projects visit my github.

Electrical Tricycle— *Senior Project*

An electric tricycle built in the final year of highschool. From the essay and presentation, all the way to the metalwork and welding.
